

# FURNITURE & SPECIALTY BUILDS PORTFOLIO

# Hello!

Here are a few quick bits of information for you regarding the content of this portfolio:

- I offer full design services for furniture, photo ops, and artistic builds. Some of the pieces here are fully custom designs and concepts, some are client designs that are fleshed out and brought to life, and some are client provided rough concepts that I've created designs and solutions for.
- I love working with clients to create the best designs possible, and take pride in deeply personalizing these projects whenever possible to make sure they reflect their owner as successfully and creatively as possible. Each piece has it's own story and meaning, and my goal is to build you a unique, personalized, eye catching design that captures the attention of both you and potential customers/viewers.

***Thank you for your time, I truly appreciate it and look forward to working with you in the future! More company info, as well as info about my other portfolios can be found on page 14.***
